

## Purina Veterinary Diets® Canned Therapeutic Formulas Have Been Enhanced

Developing better nutritional diets drives everything Purina Veterinary Diets does. Which is why it has made enhancements to some of the formulas in its line of canned therapeutic diets. Here is some important information about these enhanced formulas.

### Transition Your Pet to a New Formula

Be sure to talk to your veterinarian about how to transition your pet to a new formula. It is best to transition your pet over a period of several days. Each day, simply feed a little less of the previous formula and a little more of the new formula until the changeover is complete.

### Better Nutrition for Your Best Friend

The right diet is important to the care of your pet. These new, enhanced formulas use select ingredients that meet Purina Veterinary Diets high nutritional and taste standards.

- High-quality ingredients that pets love to eat
- Formulas based on state-of-the-art therapeutic nutrition
- No added artificial preservatives
- Easy-open lids
- Smaller, more convenient cases for canine cans

Purina Veterinary Diets is committed to providing you with the highest-quality nutritional options for your pet, which is why it backs its formulas with a 100% satisfaction guarantee.
